

muon: low- $D_W$  phase space colored by 6 major polarization configurations

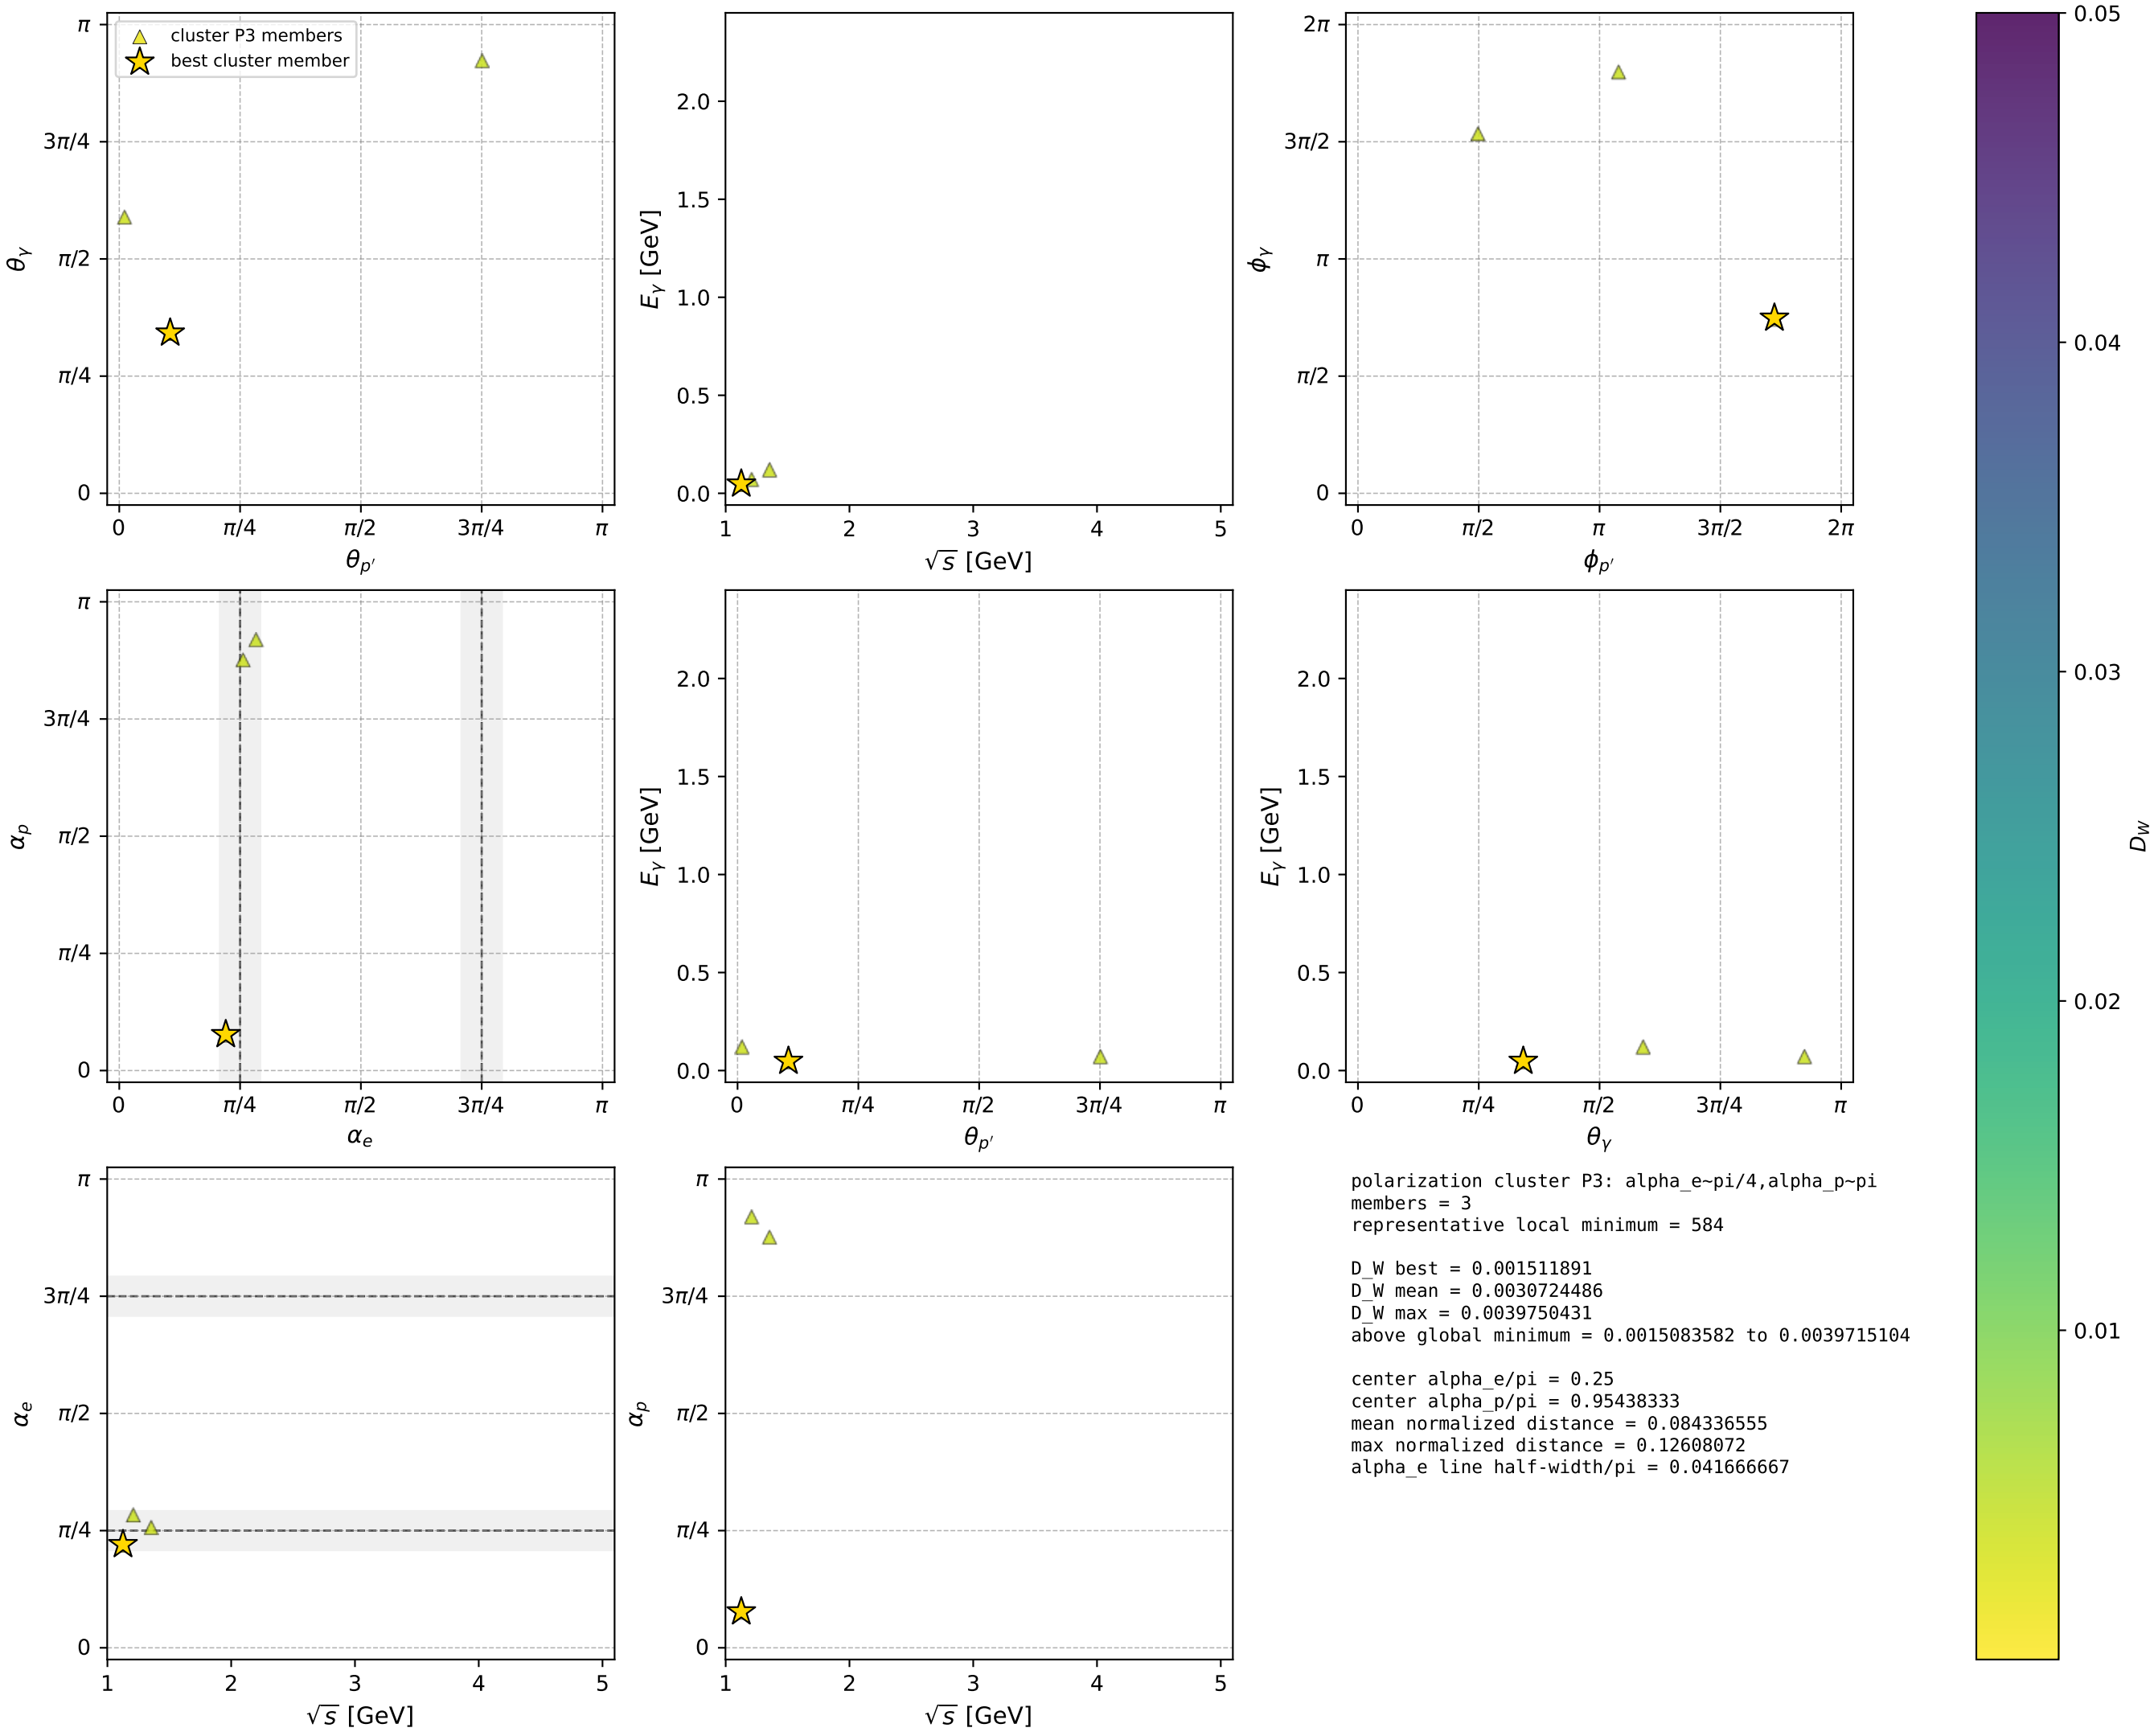

muon: polarization cluster P1; all member minima in phase space

muon: polarization cluster P2; all member minima in phase space

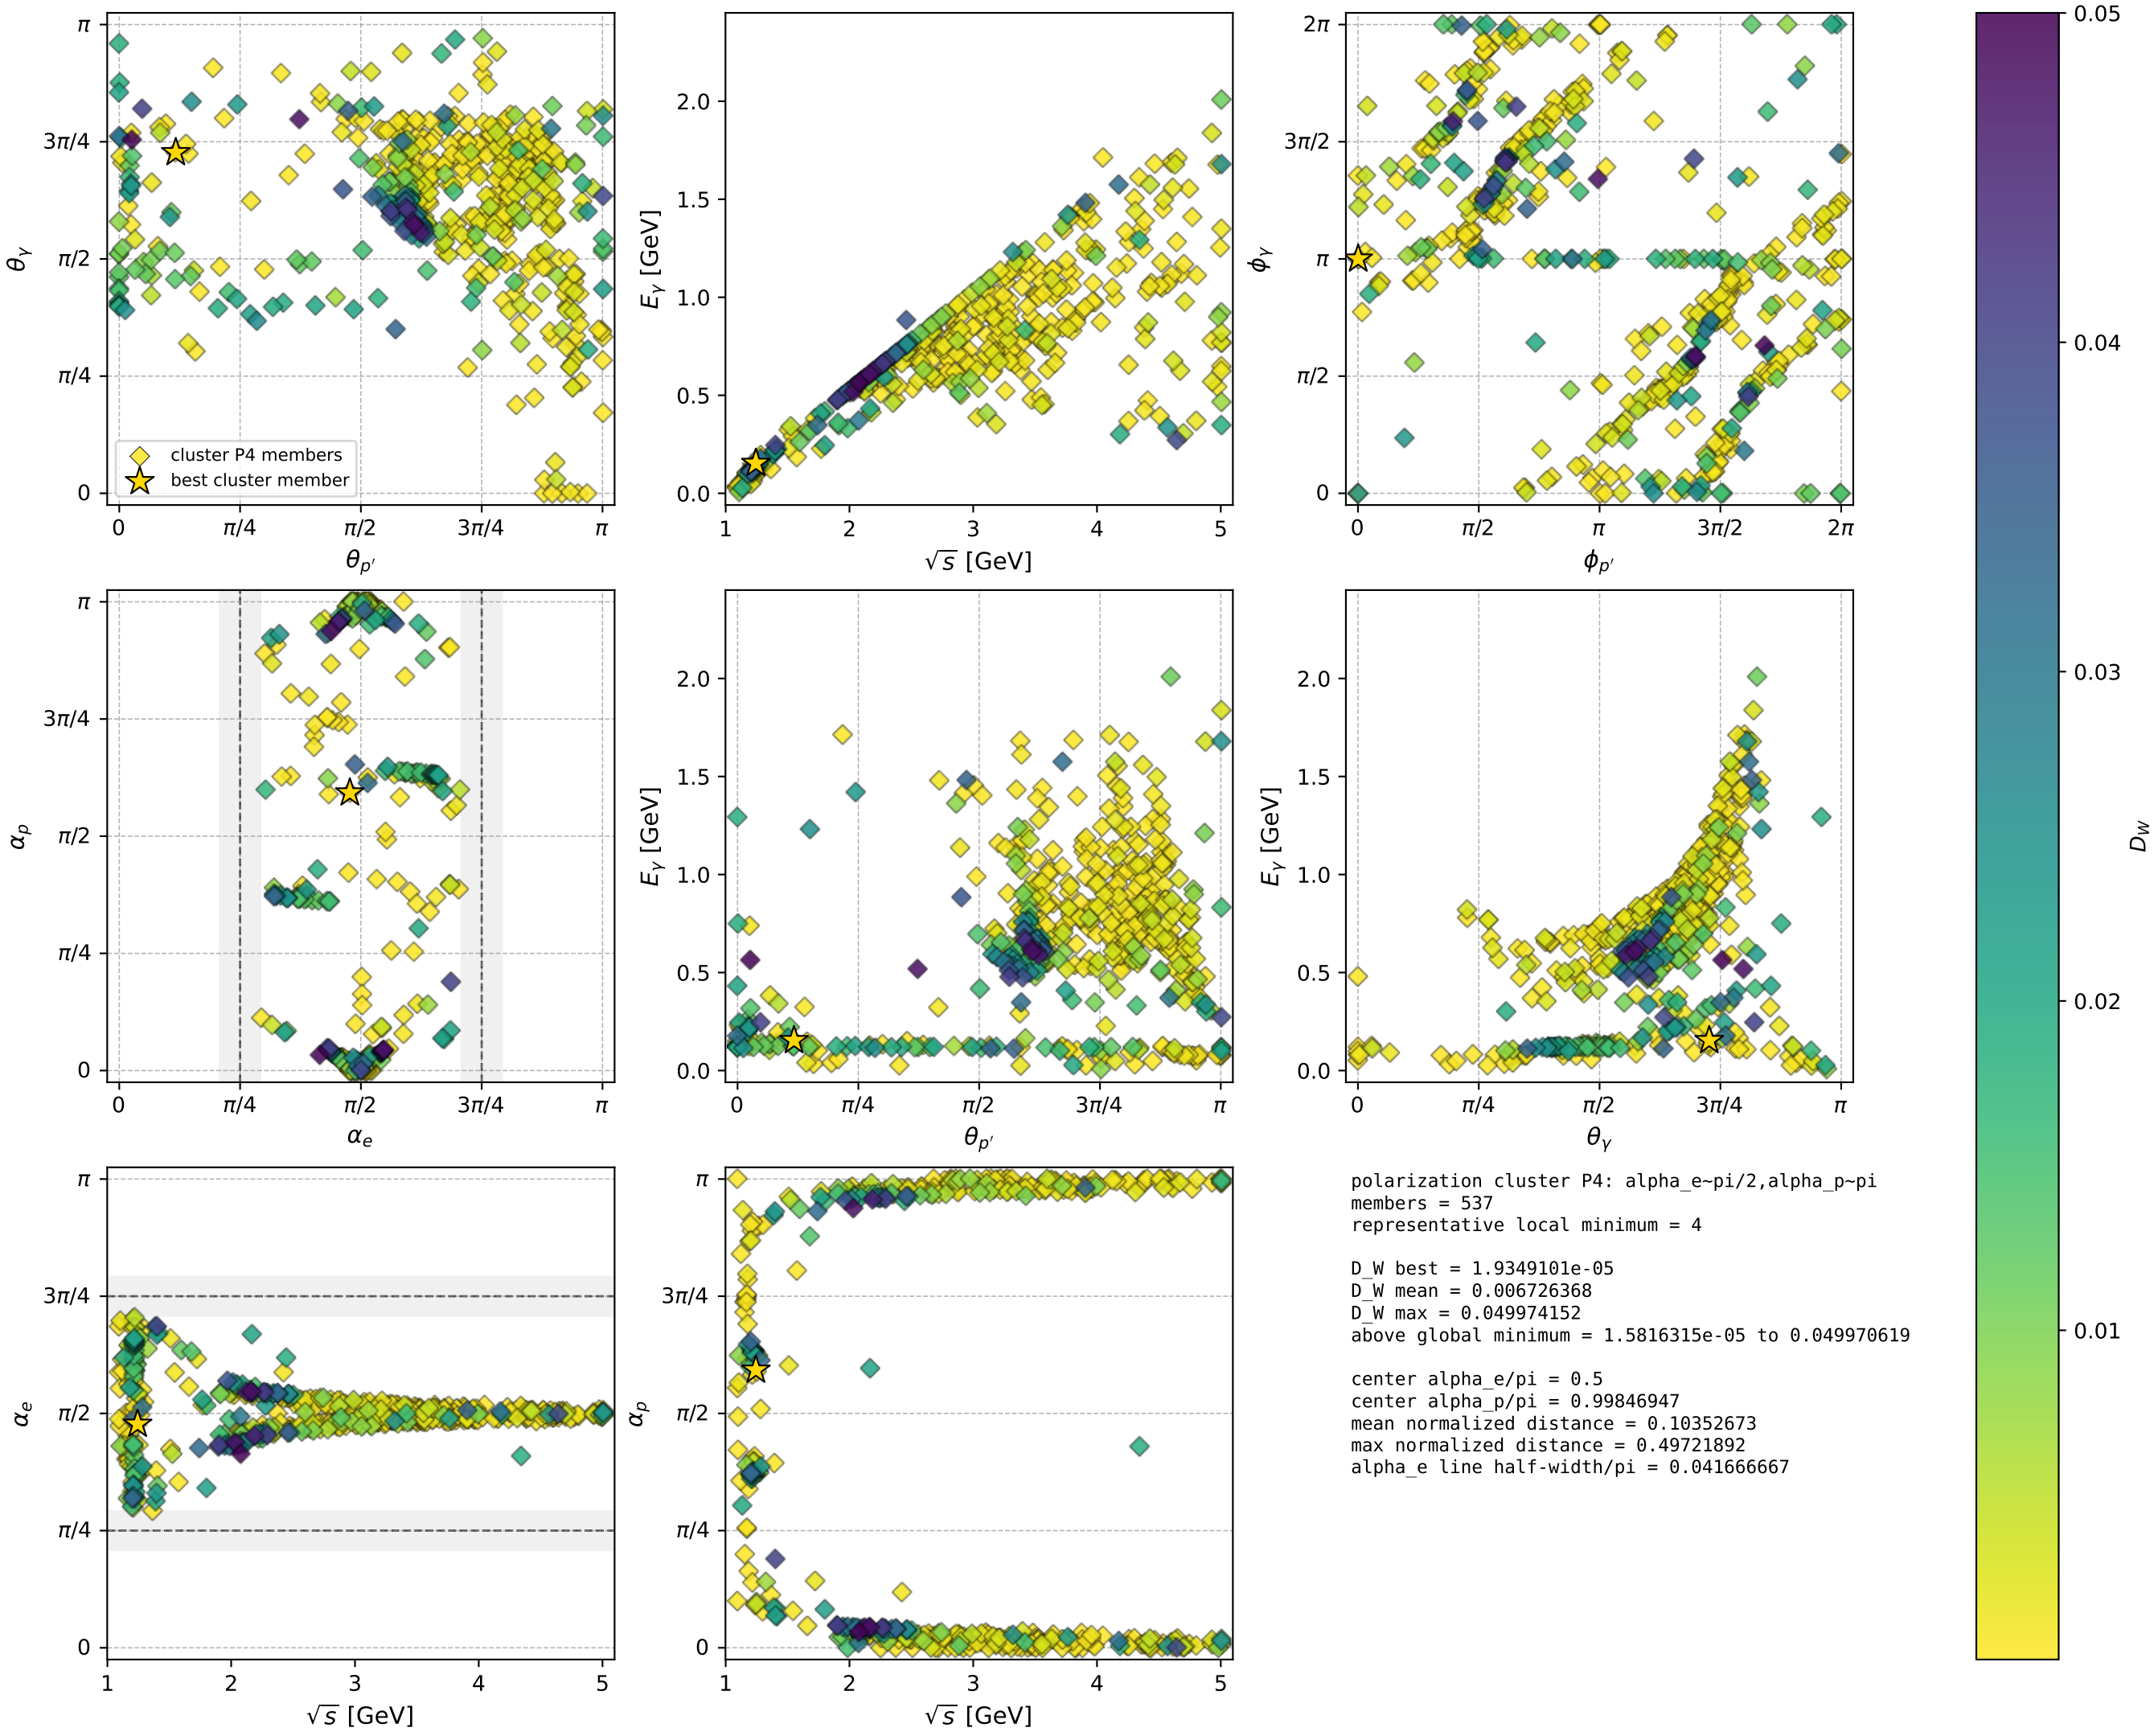

muon: polarization cluster P3; all member minima in phase space

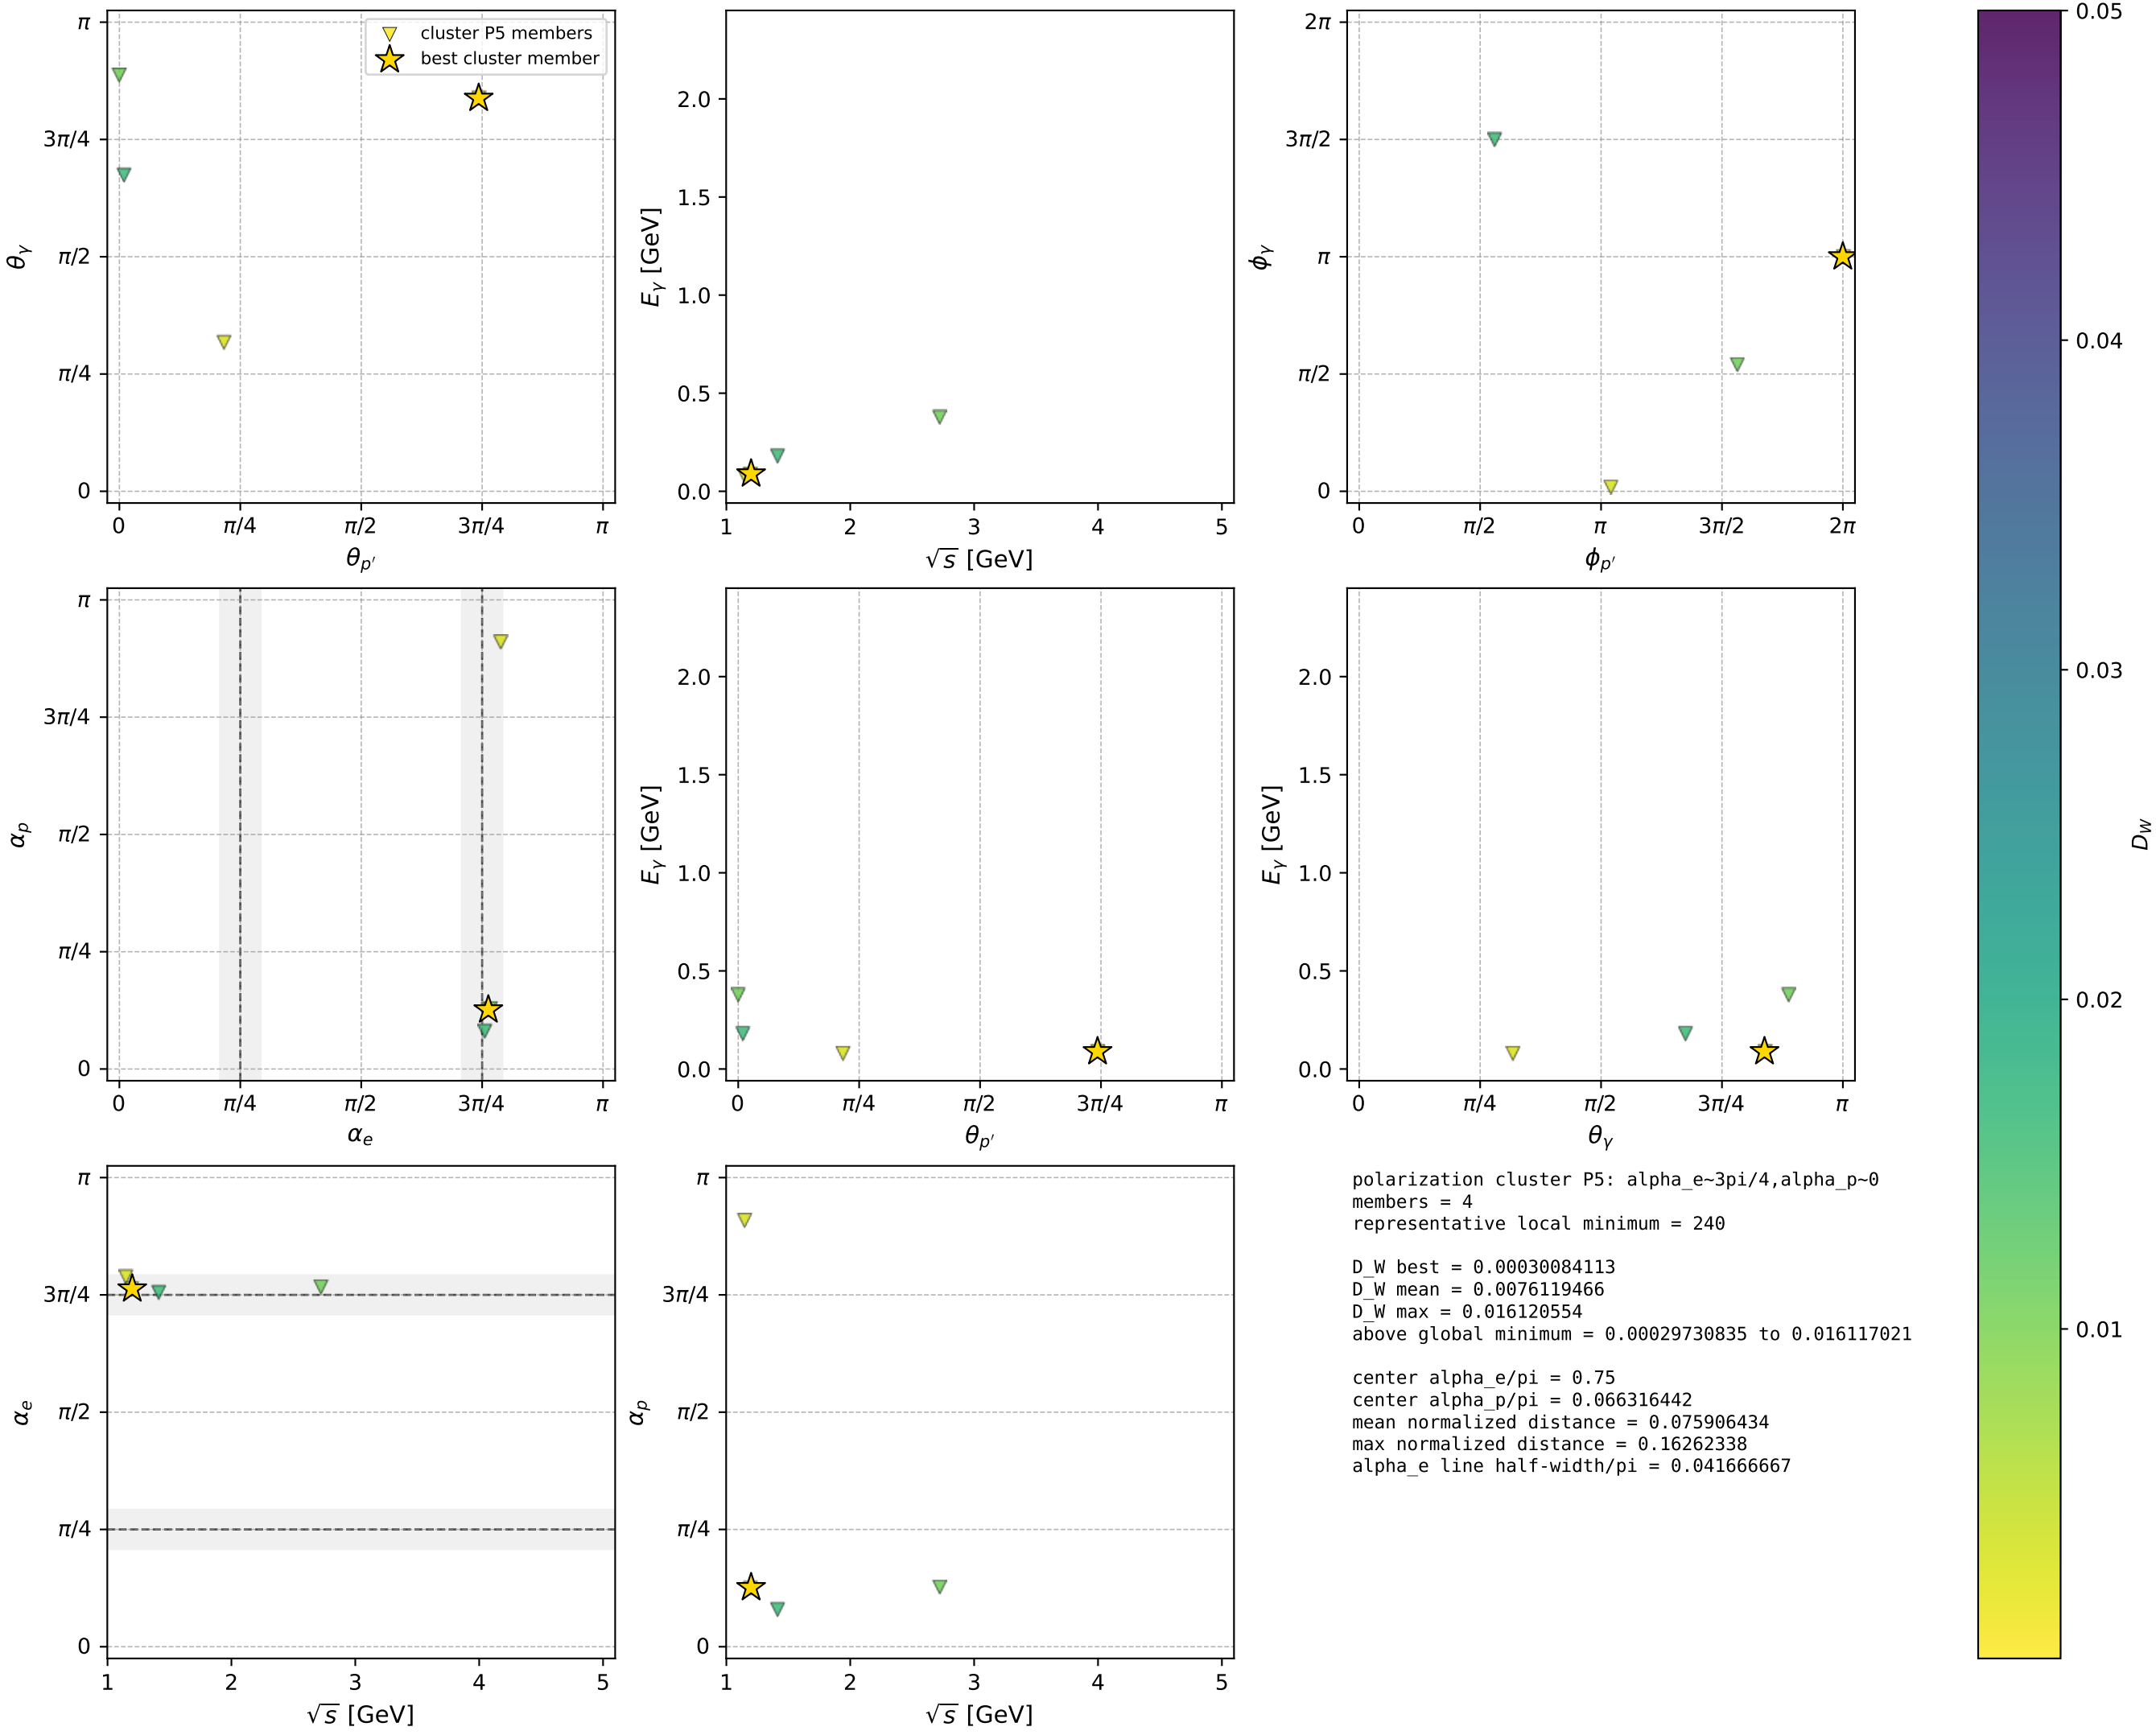

muon: polarization cluster P4; all member minima in phase space

muon: polarization cluster P5; all member minima in phase space

muon: polarization cluster P6; all member minima in phase space
