

Unpolarized: C_{ep} two-angle scans at characteristic kinematics

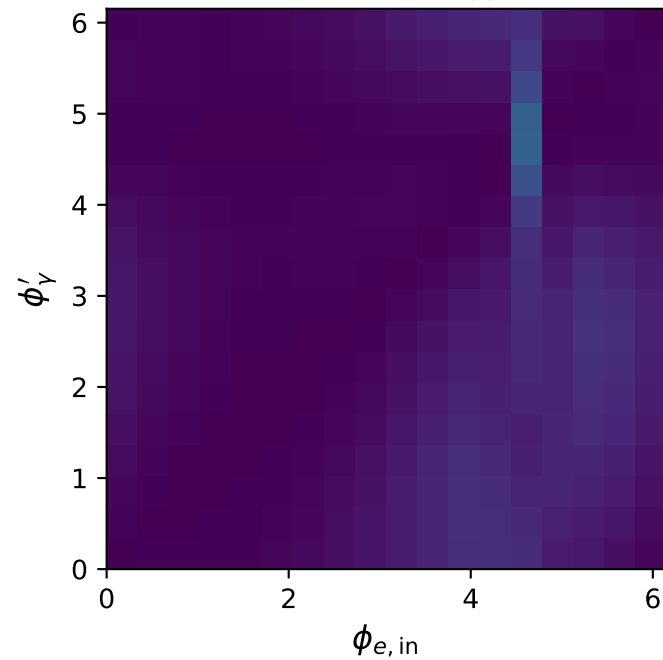

Unpolarized: $C_{e\gamma}$ two-angle scans at characteristic kinematics

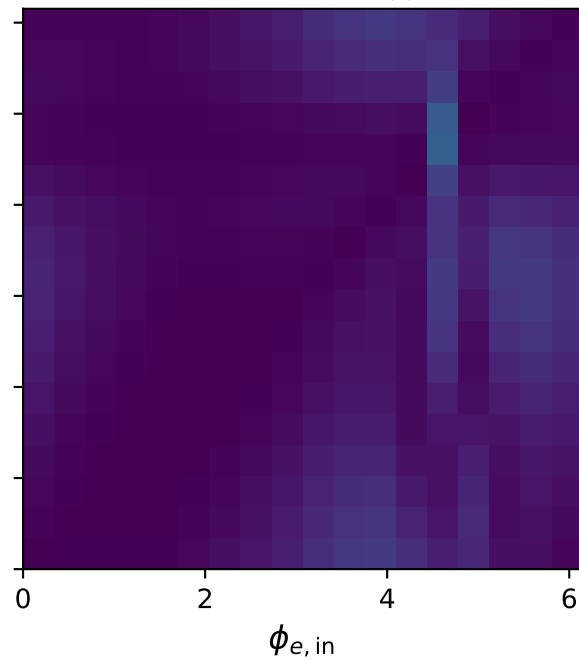

Unpolarized: $C_{p\gamma}$ two-angle scans at characteristic kinematics

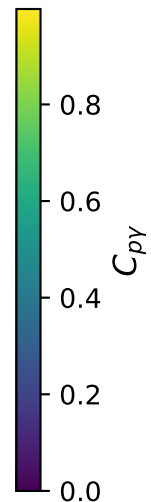

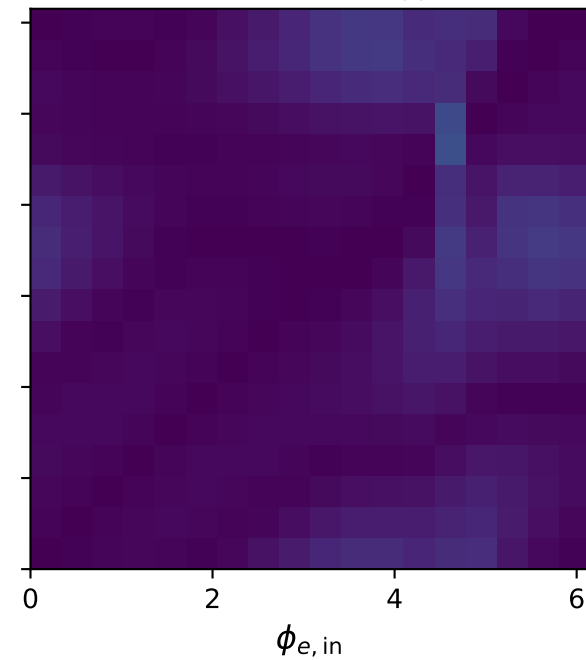

high_s, high_theta_in
low_Egamma, max $C_{p\gamma}$ =0.953

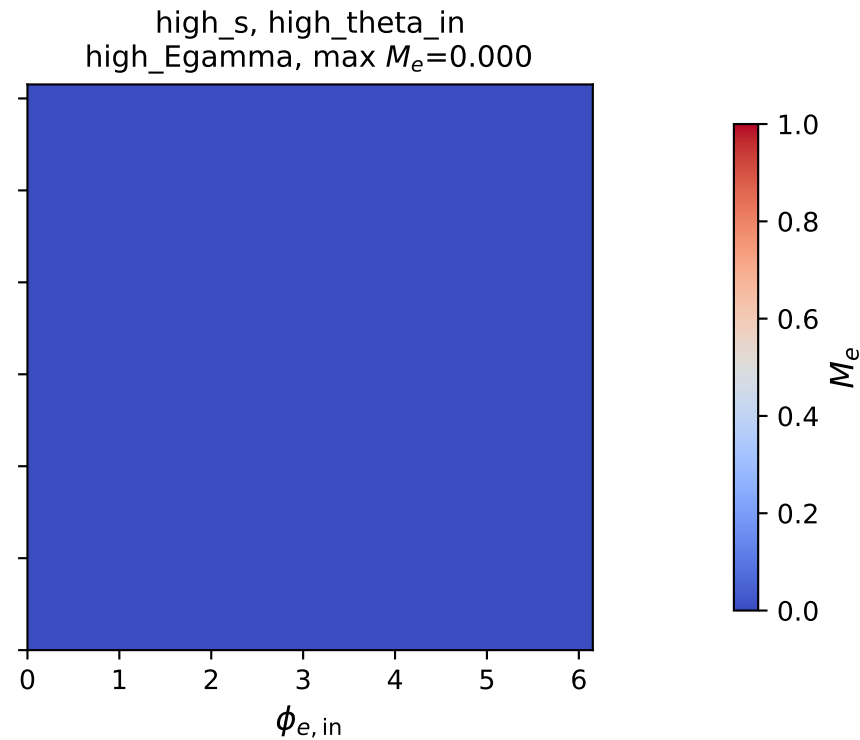

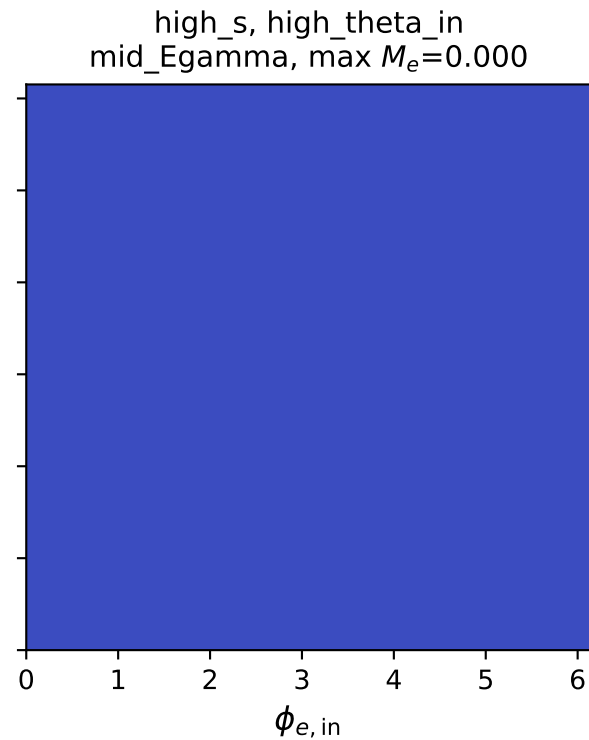

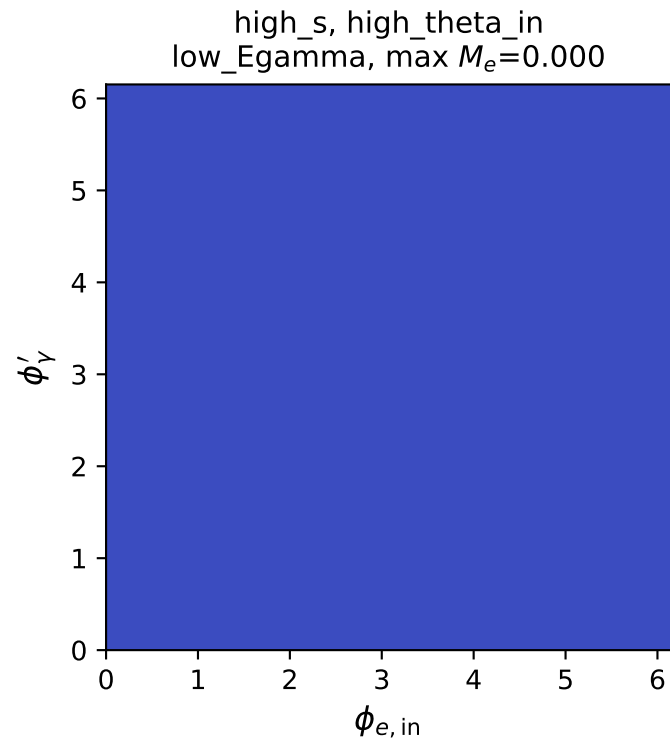

high_s, high_theta_in
mid_Egamma, max $C_{p\gamma}$ =0.998

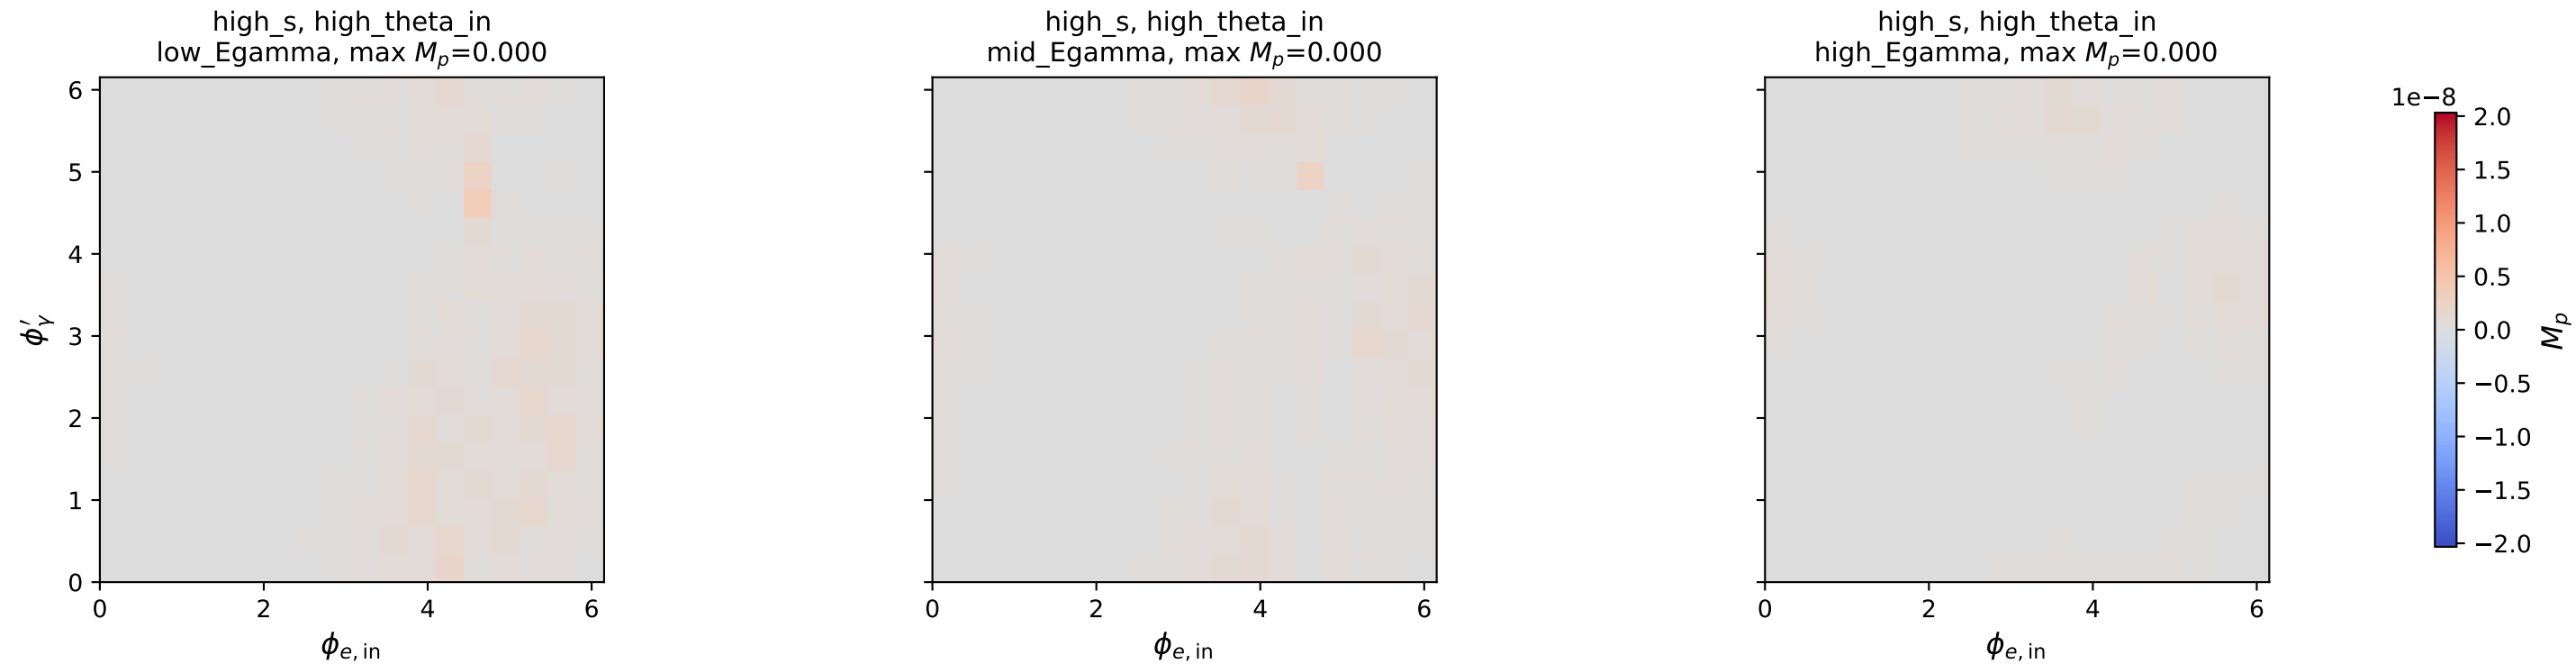

high_s, high_theta_in
high_Egamma, max $C_{p\gamma}$ =0.880

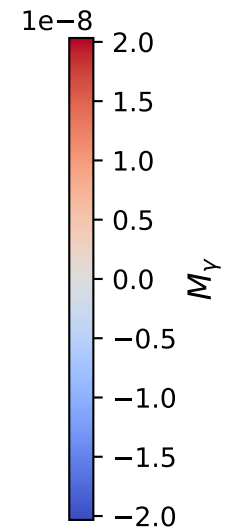

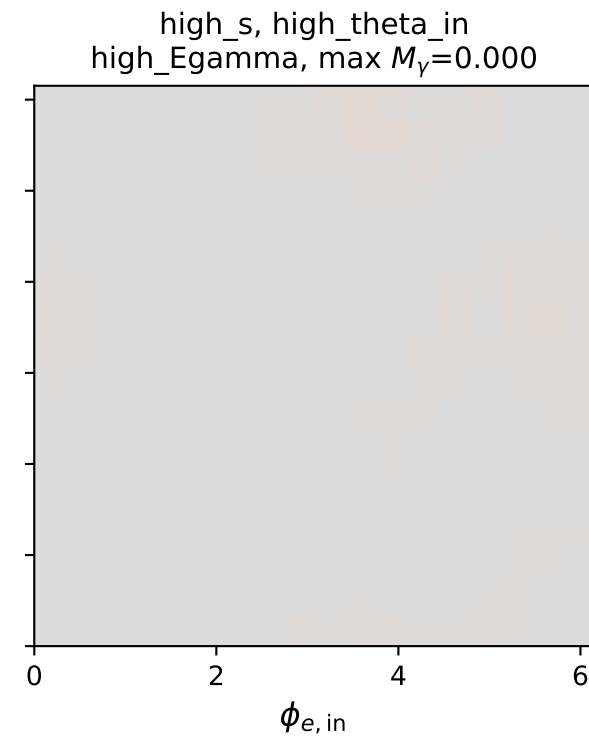

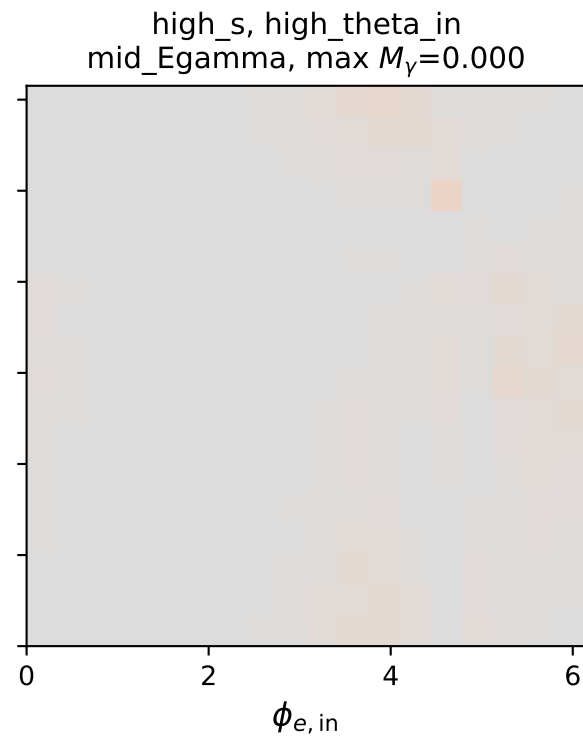

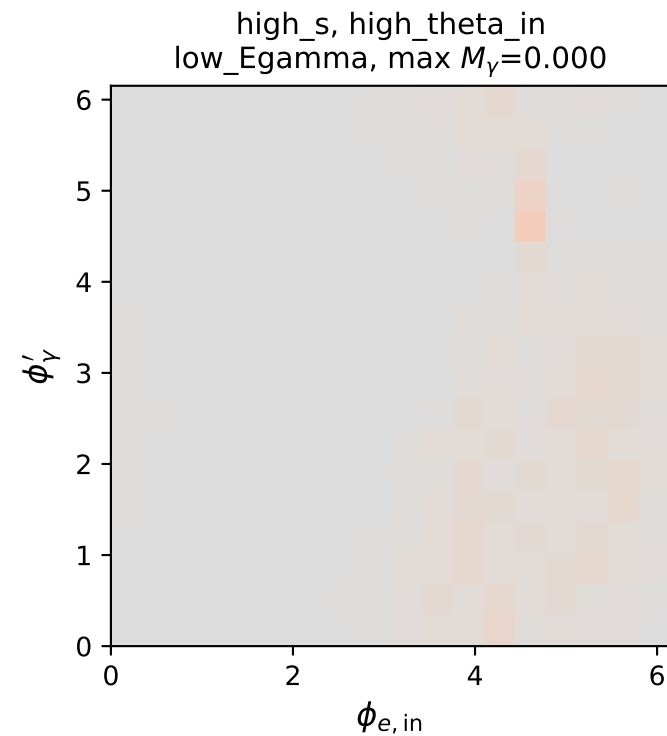

Unpolarized: M_e two-angle scans at characteristic kinematics

Unpolarized: M_p two-angle scans at characteristic kinematics

Unpolarized: M_γ two-angle scans at characteristic kinematics

Unpolarized: F_3 two-angle scans at characteristic kinematics
